

Beirut, 18th July 2011

To Whom It May Concern

Dear Sirs,

Solidere has been collaborating with Dantziguian Hrayr Automation System sarl for more than 15 years, granting DHAS many of the parking applications.

Solidere has requested from DHAS the design and implementation of the traffic guidance solution for the GOLD SOUKS project in 2009, as a pilot project of its kind in Lebanon.

The system was designed and implemented solely by DHAS, and has been operational since its commissioning in the utmost performance.

DHAS has shown a high level of professionalism during the implementation of the system, completing all tasks in due time.

DHAS proved to have a high level of commitment in their maintenance and warranty contracts, also in the flexibility in customizing their system according to Solidere's requirements.

This certificate has been issued upon DHAS request.

Sincerely,

Abdel Rahman Solh

Assistant General Manager
